18/	#63-26		
2	Director of Personnel 17 August 1	17 August 1956	
	Chief, Management Staff		
	Records Disposition Plans		
	l. Attached are the Records Control Schedules prepared by of the Records Management Staff. These adhedules provide instructions for the retirement, destruction, and preservation of records for the Office of Personnel and the Northwest Federal Credit Union.	O	
	2. Significant facts derived from the records inventory are:		
	a. 2,990 cubic feet of records are currently maintained in 616 pieces of filling equipment having a current replacement value of \$133,372.		
	b. Four percent of these records have permanent record value.	100	
	c. Three percent of these records consist of library material.		
	d. Minety-three percent of these records have a temporar retention value.	y .	
	3. Complete application of these schedules will immediately eliminate 865 cubic feet of records by either retirement or destruction and result in an estimated savings of \$34,000, which represent replacement value of filing equipment released. Continued application will permit the retirement or destruction of 269 cubic feet o records each year for an estimated annual savings of \$10,370.	ts	
	4. Seven general recommendations related to your overall Records Malagement Program are outlined in the attached survey report. Your attention is specifically directed to Recommendation No. 4, disposition instructions of the Official Personnel Folder Pile.		
	5. I express sincere appreciation to whose assistance contributed materially to the success or this survey will be available to assist in implementing these schedules.] 25X1
